2 About the by-laws

Purpose of the by-laws

2.1 The by-laws regulate the day to day management and operation of Altair. They are an essential document for the Owners Corporation and everyone who owns or occupies a Lot.

2.2 The by-laws are designed to maintain the quality of Altair and protect the unique life style enjoyed by all Owners and Occupiers. They operate to enhance everyone's use and enjoyment of their Lot and the Common Property, while balancing the rights of the Residential Lot Owners and Commercial Lot Owners.

Lots

2.3 Altair contains a mixture of Residential Lots, Commercial Lots and Carspace Lots. To ensure that the rights and interests of the Owners and Occupiers of each type of Lots are protected, some by-laws make specific provisions for Residential Lots, Commercial Lots or Carspace Lots.

Purpose of the Exclusive Use By-Laws or Special Privilege By-Laws

2.4 To more fairly apportion the costs for maintaining, repairing and replacing Common Property, the Exclusive Use By-Laws and Special Privilege By-Laws may make Owners responsible for certain costs of the Common Property which they use or occupy.

2.5 The Owners Corporation may amend or cancel an Exclusive Use By-Law or Special Privilege By-Law only by special resolution and with the written consent of each Owner who has the exclusive use rights or special privileges.

Who must comply with the by-laws?

Space heaters (gas, electric fuelled) may be installed but lot owners accept complete responsibility for any damage caused to common property particularly but not exclusively cracked glazing.

6 Floor coverings in your Lot

- 6.1 In this by-law, unless the context otherwise requires, words and phrases defined in or for the purposes of the Consolidated By-laws or the Act have the meaning there ascribed and, in addition, the following words and phrases have the following meanings:

Acoustic Performance Standard means the acoustic performance standard measured in situ for a hard surface floor finish installed in a Residential Lot that achieves a weighted standard impact sound pressure level with spectrum adaptation term of not greater than 55 dB measured in accordance with ISO 140-7 and rated to ISO 717-2 or, if those measurements and/or ratings are no longer in force or applicable, then the Australian acoustic standard that most closely approximates those measurements and/or ratings to the intent that the replacement measurements and/or ratings afford to Altair an enhanced (rather than reduced) acoustic measurement and/or rating;

approved acoustic engineer means a qualified acoustic engineer who is a member of the Association of Australian Acoustical Consultants and who is reasonably satisfactory to the Strata Committee;

hard surface flooring means any floor finish installed on a floor space, or the treatment of any floor surface, in a Residential Lot other than the installation of carpet laid over heavy duty underlay.

- 6.2 Without limiting the effect of this or any other by-law, an Owner of a Residential Lot must ensure that all floor space within that Owner's Residential Lot is covered or otherwise treated to reduce appropriately and suitably the transmission of noise that might unreasonably disturb another Owner or Occupier.
- 6.3 Except where an Owner of a Residential Lot is replacing a floor finish with carpet laid over heavy duty underlay, an Owner of a Residential Lot must obtain the consent of the strata Committee before changing or altering the floor finish within that Owner's Residential Lot.
- 6.4 Without limiting the requirements of this by-law, if an Owner of a Residential Lot wishes to install or create hard surface flooring within that Owner's Residential Lot, the Owner must comply with the provisions of this by-law.
- 6.5 At least 7 days prior to undertaking any works to install hard surface flooring, the Owner of the Residential Lot must first notify the strata Committee in writing of the owner's intention to do so including in that notice:
 - (a) the Owner's name and Lot number;
 - (b) a description of the hard surface flooring proposed to be installed including:
 - (i) the type of flooring;
 - (ii) the type of underlay (if any) proposed to be used;
 - (iii) the area within the Lot the hard surface flooring is proposed to be installed;
 - (iv) the acoustic properties of the hard surface flooring;
 - (c) a report from an approved acoustic engineer that analyses the proposed hard surface flooring, method of installation and the effect on sound transmission including impact noise following installation and states that the proposed hard surface flooring as installed will achieve the Acoustic Performance Standard and is not likely to breach clause 6.2, and request the consent

of the strata Committee to the installation of that hard surface flooring in that Owner's Residential Lot.

6.6 In order to ensure that the amenity, including without limitation acoustic amenity, of all Owners and Occupiers of Residential Lots is preserved to the greatest extent possible, the Strata Committee (or the Building Manager on behalf of the Strata Committee) may impose restrictions and obligations on the Owner of a Residential Lot in respect of which hard surface flooring is proposed to be installed (including that owner's contractors, servants and agents) including without limitation:

- (a) a requirement for the provision of a materials handling plan detailing the method or methods by which men, materials and debris are to be transported over Common Property (including a requirement to cover the internal surface of lifts with protective shrouding)
- (b) requirements for the cleaning, and where necessary the repair, of Common Property affected by the transportation of men, materials and debris over Common Property;
- (c) written assurance that the hard surface flooring will not be installed in such a way that it comes into contact with a wall or skirting within the Residential Lot;
- (d) the provision of a Bond in an amount reasonably determined by the strata Committee as sufficient to meet the costs of rectifying any damage (including cleaning) caused by the installation of the hard surface flooring;
- (e) compliance with the Checklist obtained by the Owner of the Residential Lot from the Building Manager.

6.7 The strata Committee must deal promptly with a request for consent under this by-law and must not unreasonably refuse such request, providing that the Owner of the Residential Lot has complied with the requirements of clauses 6.5 and 6.6 and, in particular but without limitation, that the report provided in respect of paragraph 6.5(c) satisfies the requirements set out in that paragraph.

6.8 Following the installation of hard surface flooring in a Residential Lot, if there is any complaint within the 12 months following the installation of the hard surface flooring about noise transmission through that part of the floor of that Residential Lot in which the hard surface

flooring has been installed, the Strata Committee may by resolution require, and if it does so the Owner of the Residential Lot must obtain and provide to the Strata Committee, a report from an approved acoustic engineer:

- (a) certifying that the approved acoustic engineer has conducted field impact isolation testing of the installed hard surface flooring *in situ*; and
- (b) specifying the results of that acoustic testing; and
- (c) certifying that the hard surface flooring has been installed in accordance with the manufacturer's specifications and that the installation otherwise complies with the requirements of this by-law including those in the report required under paragraph 6.5(c).

6.9 If the certificate of the approved acoustic engineer provided under clause 6.8 discloses that the installed hard surface flooring does not comply with the requirements of this by-law, in particular but without limitation the parameters set out in paragraph 6.5(c), the Owner of the Residential Lot in which the hard surface flooring is installed must take such steps as are necessary to rectify the deficiencies in the installation so that the installed flooring complies with the requirements of this by-law in default of which the Owner must replace or cover the hard surface flooring with carpet laid over heavy duty underlay.

6.10 If a report complying with clause 6.8 is not provided to the Strata Committee within three months after the strata Committee has resolved to require that report, the Owners Corporation, by resolution of the strata Committee, has the right, by notice in writing to the Owner of the Residential Lot in which the hard surface flooring has been installed, to require the hard surface flooring to be replaced or covered with carpet laid over heavy duty underlay at the cost of the Owner.

6.11 The Owners Corporation is not entitled to require the hard surface flooring to be replaced with carpet laid over heavy duty underlay:

- (a) if the failure of the Owner of the Residential Lot to supply the approved acoustic engineer's certificate is due in whole or in part to the inability of the approved acoustic engineer (acting reasonably) to gain access to the Residential Lot or Residential Lots

below or, as applicable, adjacent to, the Residential Lot in which the hard surface flooring is laid for the purpose of conducting acoustic testing; or

- (b) any complaint about noise transmission from the floor space of the Residential Lot in which the hard surface flooring is installed is made more than 12 months after the hard surface flooring has been installed.

6.12 An Owner of a Residential Lot that is served with a notice from the Owners Corporation requiring the Owner of the Residential Lot to cover the floor of the Owner's Residential Lot with carpet laid over heavy duty underlay must comply with that notice within three months of service of that notice on the Owner by the Owners Corporation.

6.13 The Owner of a Residential Lot in which hard surface flooring is installed is liable for any damage caused to any part of the Common Property as a result of the transportation of men, materials and debris across Common Property and/or the installation of the hard surface flooring in that Residential Lot and must take all such steps as are necessary to make good that damage within a reasonable time after it has occurred.

6.14 The Owner of a Residential Lot in which hard surface flooring is installed must indemnify the Owners Corporation against any loss or damage, cost, charge or expense incurred or sustained by the Owners Corporation as a result of or arising out of installation of the hard surface flooring in the Residential Lot or the transportation of men, materials and/or debris across Common Property.

6.15 For the avoidance of doubt, the Owner of the Lot in which hard surface flooring is installed or proposed to be installed must bear and pay all of the costs of installation of the hard surface flooring and of compliance with this by-law, including without limitation retention of the approved acoustic engineer, rectification of any damage of whatsoever nature caused by the installation of the hard surface flooring, and the reasonable costs of the Owners Corporation in enforcing this by-law.

6.16 This by-law does not apply to floor space comprising a terrace, balcony, car space, laundry, kitchen, lavatory or bathroom.

“Maximum Number” means

In the case of a Lot with 2 authorised bedrooms; up to 4 adults at any one time; and

In the case of a Lot with 3 authorised bedrooms; up to 6 adults at any one time.

35.2 The Owners Corporation is concerned that unrestricted numbers of residents in some Lots:

- (a) may place extra strain on common services, compromising fire safety services designed and installed in the Building and posing a greater security risk to the Building;
- (b) is in contravention of Regulation 22 of the Public Health (General) Regulation 2002 (a copy of which is available on request to the Building Manager); and
- (c) constitutes overcrowding which may void or nullify the Building’s insurance policies and the payout of certain insurance claims.

35.3 The Common Property services in Altair cannot accommodate more persons than the configurations of the Lots intended. The Owners Corporation proposes this by-law in the interests of properly discharging its duty to manage and control the use of the Common Property.

35.4 In addition to prohibitions and obligations imposed in other by-laws for Altair, you must not and must not permit any other person to:

- (a) allow, condone or suffer Long Term Sleeping Accommodation in your Lot by more than the Maximum Number;

- (b) alter or interfere with Common Property services, conduits, pipes and cables in the Building; and
- (c) install partitions within Lots in an attempt to create more rooms or separate rooms to accommodate more than the Maximum Number without the Owners Corporation's prior written consent (such consent to be given or withheld in its reasonable discretion.)

35.5 You will be liable for any damage to the Common Property caused by your breach of this by-law.

35.6 You must indemnify the Owners Corporation against any claim, action, demand or expense incurred in relation to:

- (a) overcrowding in excess of the permitted Maximum Number in your Lot in breach of this by-law; and
- (b) increased insurance premiums as a result of a breach of this by-law;
- (c) the exercise of its rights under this by-law; and
- (d) enforcement of this by-law.

payable at the Owners Corporation's direction and which, if unpaid within 1 month of being due, will bear simple interest at the rate of 10 percent per annum or, if the regulations provide for another rate, that other rate, until paid and the interest will form part of that debt.

36.2 The Residential Lots constitute a solely residential area within the strata scheme and, accordingly, in order to ensure the safety, particularly fire safety, and security of all Owners and Occupiers of Lots and the preservation of the amenity and quiet enjoyment of the Lots and Common Property associated therewith, every Owner and every Occupier must ensure that the

Lot of which they are the Owner and/or Occupier is not used for commercial purposes or for any prohibited use.

- 36.3 Every Owner and every Occupier of a Commercial Lot must ensure that the Commercial Lot of which they are the Owner and/or Occupier is not used for a prohibited use.
- 36.4 Clause 36.2 in this by-law does not prohibit the use of part of a Residential Lot by an Owner or Occupier as a study or the conduct within the Residential Lot of the personal business of an Owner or Occupier provided that that business does not involve the operation within the Residential Lot of an office employing persons in the Residential Lot who are not otherwise an Owner or Occupier of the Residential Lot.

Change of Use

- 36.8 Any change of use of a Residential Lot that involves the Residential Lot being used for any purpose falling within the definition of prohibited use in this by-law will adversely affect the Common Property, the security of Altair and the amenity of Owners and Occupiers in their quiet enjoyment of their Residential Lots.
- 36.9 No application may be made to the City of Sydney Council or any other consent authority within the meaning of the *Environmental Planning & Assessment Act 1979* for a development application or an application for a complying development certificate, or any other like approval, to change the use of a Residential Lot to permit the Residential Lot or any part thereof to be used for any purpose falling within the definition of prohibited use in this by-law, and thereby adversely affecting the Common Property, unless the application has first been approved by resolution of Owners in general meeting.
- 36.10 If Owners approve by resolution in general meeting the making of an application described in clause 36.9, the Owners Corporation must affix the common seal of the Owners Corporation to the application.
- 36.11 If the City of Sydney Council or other relevant consent authority approves the use of a Residential Lot or any part thereof for any purpose falling within the definition of prohibited use, the Owners Corporation shall be entitled to charge the Owner of the Residential Lot the Administration Fee for each day on which the Residential Lot is so used.
- 36.12 The Administration Fee shall be charged to, and payable by, the Residential Lot Owner at the same time as normal contributions to the administrative and sinking funds are levied and paid.
- 36.13 If the Administration Fee is not paid within one month after the due date, it will bear until paid simple interest at the same rate as specified in the Act in respect of the recovery of unpaid contributions, or if the Regulation provides for some other rate, then at that other rate
- 36.14 The Administration Fees (including interest thereon and the costs of recovery) shall be recoverable by the Owners Corporation as a debt due and payable in the same way as contributions are recovered under the Act.

36.15 If the Administration Fee is not paid by the Owner of the relevant Residential Lot, in addition to the other rights the Owners Corporation has under this by-law, the Owners Corporation may withhold the provision of any of the administration services to that Owner or any Occupier of the Residential Lot or invitee of any such Owner or Occupier including, without limitation, the provision of Security Keys.

Enforcement of By-Law

36.16 For the purposes of ensuring compliance with this by-law and in order to ensure the safety and security of all persons lawfully residing within Altair, the strata Committee, the Building Manager or the Strata Manager may require any person in apparent occupation of any Residential Lot to produce to the strata Committee, the Building Manager or the Strata Manager, as applicable, written proof of lawful occupation of that Residential Lot which may include but is not limited to:

in default of which the Owners Corporation is entitled to assume that the Residential Lot is being occupied for a prohibited use and/or contrary to the provisions of this by-law and thereafter the

strata Committee, Building Manager or Strata Manager, as applicable, may without further notice to the Owner or Occupier:

- (f) confiscate and/or deactivate any Security Key giving access to the building in the possession of that person; and/or
- (g) take such action against the Owner of that Residential Lot as the strata Committee considers appropriate for the enforcement of this by-law.

36.17 (a) This by-law is a fundamental term in any lease or licence granting rights of occupation to a Lot, whether or not the lease or licence contains a clause having the same effect as this by-law.

(b) Every Owner must include in any lease or licence granting rights of occupation to the Lot of which they are the Owner:

- (i) in respect of a Residential Lot, the maximum number of persons who are to occupy the Residential Lot; and
- (ii) in respect of any Lot, a clause providing that any breach of this by-law is an event of default on the part of the lessee, licensee or other Occupier entitling the Owner to give to the lessee or licensee a termination notice of the lease or licence.

(c) If a lessee, licensee or other Occupier of a Residential Lot commits a material breach of this by-law, upon that breach being drawn by notice in writing to the attention of the Owner, that Owner must take immediate steps in accordance with the *Residential Tenancies Act 2010* or any Act replacing the same to terminate the lease or licence and the occupation of the Residential Lot thereunder, including without limitation making and maintaining such application or applications as may be necessary to the NSW Civil & Administrative Tribunal for the vacation of the Residential Lot under Part 5 of the *Residential Tenancies Act 2010* and the Regulations thereunder.

Owner, that Owner must take immediate steps to terminate the lease, or licence and the occupation of the Commercial Lot thereunder.

36.18 If an Owner of any Lot is given notice in writing of any breach of this by-law in respect of the occupation of that Lot and that Owner defaults in complying with that notice, the Owners Corporation may:

- (a) demand that the defaulting Owner do certain acts or things to remedy that default;
- (b) take such action as the Strata Committee considers is reasonable and appropriate in the circumstances to enforce the provisions of this by-law;
- (c) recover the costs of any action taken by the Strata Committee to enforce this by-law (including the costs of recovery) from the defaulting Owner as a debt due and payable;
- (d) if that debt is not paid or not paid in full within one month after the date on which it is due, impose on the outstanding amount of that debt simple interest at the same rate as applicable to contributions unpaid under section 79(2) of the 1996 Act or section 85 of the 2015 Act, or if the regulations under the Act prescribe some other rate, then at that other rate; and/or
- (e) include reference to any such debt (including interest thereon) on notices under section 109 of the 1996 Act or section 184 of the 2015 Act in respect of that Lot.

Exceptions

- 36.19 (a) The restrictions in clause 36.6 do not apply in circumstances where the Strata Committee has otherwise approved the lessee not residing in the Residential Lot, or the occupation of the Residential Lot otherwise than pursuant to an approved tenancy, which approval must not be unreasonably withheld.
- (b) The approval of the strata Committee pursuant to clause 36.19(a) must not be given more than twice in any six month period.

Recovery of Costs

37.33 Your obligations under this by-law to reimburse the Owners Corporation are in addition to and not in substitution for your obligations as an Owner of a Lot in the strata scheme, in particular, the obligations of Owners under Part 3 of the Act to make contributions to the administrative and sinking funds.

- (a) in rectifying damage to the Common Property as provided in clause 37.9,

40.2 The Owners Corporation may add to or change the Rules at any time and will notify Owners of such changes or additions.

44. Fixtures

- 44.1 In this by-law fixture means a fixture, equipment or building work made by you or any other Owner or Occupier of your Lot.
- 44.2 Unless it is a fixture removable by an Occupier or sub-lessee at the expiration of a tenancy, a fixture that serves a Lot is your fixture.

- 44.3 You must maintain in a state of good and serviceable repair a fixture that serves your Lot and must renew or replace it when necessary.

- 45.4 If a notice is dispatched electronically to an owner of a lot at the last e-mail address recorded in the strata roll for that owner and the sender receives an electronic notification that the transmission

of the e-mail was not successful or the notice is not transmitted to an owner at the last e-mail address recorded on the strata roll, the notice will not be duly served unless served on the owner by another means specified in the Strata Management Act for the service of notices on an owner of a lot.
